

KONTAKT

_ KONTAKT

KONTAKT is live architecture that combines sound, light and movement. The audience is immersed in a changing tide of atmospheres, carried along by the various moods of the installation. This interactive project allows the public to play at altering certain aspects of its behavior – even to try and tame this changeable creature. The project is both independent and interactive. Even without external intervention it is always evolving, revealing its many faces, one after another. Each mood immerses the viewer in a specific universe.

_Project:	Audio visual installation
_Artist:	Nicolas PAOLOZZI
_Sound Design:	Thomas BLANC
_Production:	MODULE X Lyon Light Festival 2016

Wind resistance: 100km/h

_Dimensions:	ø13,5m ; h=6,2 m
_Weight:	3000kg (187,5kg/m2)
_Power:	14KWA (4 x 3500W; 220V; 16A)

_ SCHEDULE

* To be provided by the organizer
 ** Can be managed by the organizer

Requirements / Days	1 day	3 days			X days	2 days		1 day
	EQUIPMENT & TEAM ARRIVAL	INSTALLATION (4 people)			EXHIBITION	DISMANTLING (4 people)		EQUIPMENT & TEAM RETURN
TASKS	equipment unloading	structure assembling	lighting system installation	sound system installation		lighting & sound system removal	structure dismantling	equipment loading
TRANSPORT**	Truck 7,3 x 2,44m or container DRY 20 feet (forklift needed for unloading)							Truck 7,3 x 2,44m or container DRY 20 feet (forklift needed for unloading)
BOOM LOADER**	boom loader delivery	x1 boom loader 12m high				x1 boom loader 12m high	boom loader return	
BOOM LIFT**	boom lift delivery	x1 articulated Boom Lift 12m high						boom lift return
POWER*	power supply setup	TOTAL 14KVA = x4 PC16A; 220V; 3500W						power supply return
SECURITY*	x1 security agent at night			x1 security agent 24/24h	x1 security agent at night			
WORKING AREA*	10 x 10m (please provide fences)	30 x 30m (please provide fences to secure the area)			15 x 15m (please provide fences)	30 x 30m (please provide fences to secure the area)		10 x 10m (please provide fences)
STORAGE*	equipment & machines on site			10m2 for equipment - parking nearby for boom lift	equipment & machines on site			
SOUND SYSTEM**		sound system delivery	<ul style="list-style-type: none"> - x4 Speakers D&B MAX2 (NLT4) or similar - Amplificator D&B D20solo (NLT4) or similar - x3 cable Speakon (NLT4) 10m - x1 cable Speakon (NLT4) 5m - x1 Adapter Cable XLR + Mini Jack 1m 			sound system return

MATERIALS & TECHNOLOGY

We mainly work with steel and aluminium, both metals that are resistant over time and can be **recycled over and over!** Our building elements are locally manufactured in Lyon region in order to limit intermediaries and support the local economic system. We exclusively use the LED technology for our lighting system, to reduce our energy consumption.

BUILDING TIME

Assembly and dismantling phases are carefully planned to be as short as possible in order to **don't waste time, reduce noise levels and limit the vehicles' intervention on site.**

RE-USE

All elements of our installations are tailor-made, designed by Nicolas Paolozzi. **Each piece can be used many times on different projects**, which limits unnecessary manufacturing and stock, in a logic of reusing, optimization and environmental impact reduction.

COMPACTNESS

We integrate the transport issue from the very start of the project design. By reducing the installation volume to a minimum during transport and use the smaller vehicle possible, **we minimize our fuel consumption and carbon footprint.**
