2022

NEVER TRY WITHOUT US

WHO ARE WE ?

Drakonia

Numeric Wave

Dimension Events

NTWU emerged in 2017 by the impulsion of the association Drakonia, strong by its years of experience in the esport & entertainment universe.

During our events, we can rely on our equipment and the knowledge of NTWU's twin company: Numeric Wave, specialized in development, network infrastructure, and computer park management.

Since 2020, we have been collaborating with Dimension Events, specialist in entertainment logistics, over-equipped in sound & light materials. Our fusion is planned for the end of 2022.

End of 2022, we will be moving into a new complex of 1,600m² with a TV tray, stock, a workshop, new offices, a social hub, etc...
