

GAMEPLAY LEVEL2 _ Tech Sheet

Availability: January-December 2022

The performance needs a darkened space (stage, black box, exhibition hall).

Duration: 60 mns

Number of dancers: 2

Space (dressing room for two dancers, mirrors, shower)

- Medium to large size fully equipped dance stage (minimum 6 m wide x 5 m deep), black box
- Ceiling height: 5,23 m minimum, ideally 6 m (wide angle for video projector)
- Projected image on the floor should be at least 4,60 m wide
- Black (ideally grey) dance floor (not white) or grey rectangular linoleum (adapted to the size of the projected image, dimensions: minimum width 4,60 m x depth 3,30 m) fixed on stage, near the back wall
- Grid on ceiling for attaching video projector and camera suspension system
- Control room or space (must see the stage, ideally behind the public)

Image

- 1 Video projector (4000 lumen minimum) w/wide angle lens (on ceiling, see above)
- 1 Video projector (4000 lumen minimum), frontal - covering a surface (black back wall or flat fabric or white screen) equivalent to the projected image on the floor > so that the frontal image prolongs the one on the floor
- HDMI cables (from ceiling to control room and from frontal VP to control room)
- 220V multiple sockets and extension cords available on ceiling grid

Lights

- Cut light projectors (4 or 6 on stands for side lighting)
- Lights manual dimmer board in control room

Sound

- Stereo professional sound system, with Low frequencies LS, w/monitors for the dancer
- DI box (x 2 or stereo) in the control room
- One mixing table (two balanced lines)
- Amplifiers
- Transformers 110V-220V

Company provides

- Computers
- Surveillance camera (infrared IP camera)
- Camera suspension system
- Video projector suspension system

Company can provide

(on request/special arrangement)

- ethernet cable (20 m)
- HDMI cable (20 m)
- Video projector
- Stereo DI-Box
