

a-bahn.com

Since the founding of a_BAHN in 2013, we've been working on developing the art of hybridization; trying to be at the intersection of forms and genres, which breaks free from established norms. a_BAHN has a unique experience in original out-of-the-box and hybrid contents.

The company is fully dedicated to supporting the creation of content that is both artistic and accurate, to bringing together the traditional worlds of film and television with new media, and also to developing challenging narratives with high artistic value and an international audience.

a_BAHN produced, among other, the highly-acclaimed animated film *Zero Impunity* by Blies Brothers (2019, Annecy International Animation Film Festival, Sao Paulo IFF, Moscow IFF, Thessaloniki IFF, Amiens IFF, Guadalajara IFF...), Blies Brothers' transmédia *Soundhunters* (ARTE - 2016, nominated for the Prix Europa), VR films like *7 Lives* by Jan Kounen (2019, Tribeca Film Festival) and *Cosmos Within Us* by Tupac Martir (2019, Mostra di Venezia International Film Festival, Raindance Film Festival - Best Experience award), or more recently ARTE's documentary *Monk, Pannonica & the Jazzmen* by Jacques Goldstein (released in spring 2022).

a_BAHN has currently several films in production, especially the ambitious TV documentary series *Draw For Change*, or the touring immersive experience *Sweet Dreams* by Robin McNicholas and Simon Wroe. a_BAHN also works on several films development, notably *Poussière Rouge*, a feature-length by Moussa Touré (Cannes Un Certain Regard 2012) and *Melancholia*, a XR experience by Blies Brothers.
